

# 8GB Computer memory DDR3 for QNAP TVS-EC1080-i3 UDIMM

#### PHS-memory® - computer memory with 100% quality

- many years of IT competence
- Free support for optimal configuration and product selection
- High availability through professional warehouse management
- Fast delivery in throughout Europe
- Short response times and professional order processing due to full digitalization throughout the entire process with complete traceability
- Incoming goods inspection include checks of the DRAMs, PCBs and the programmed SPDs in order to exclude possible errors (Controlled BOM).
- PHS-memory® brand memories guarantee 100% compatibility to the specified system.
- PHS-memory® memories can be used together with existing memories in the device depends on to the configuration rules of the system.
- The "fallback option" in the SPD of PHS-memory® allows DRAMs with higher clock rates to be operated together with older memory modules with lower clock rates within the system.
- Products with unique serial number for service and warranty
- Pre-sales and after-sales support by technically trained personnel

### Memory Specification

▪ 133.35mm			
DDR3 UDIMW warranty void if removed	9.5mm	17.3mm	30mm
	t		

Memory size	8GB
Memory technology	DDR3
ECC support	ΠΟ
JEDEC Norm	PC3-10600U
DRAM Organization	512Mx8
Rank	2Rx8
Туре	UDIMM (Non-ECC unbuffered)
Number of pins	240 Pin DIMM
Memory data transfer rate	1333MHz @ CL9
Speciality	-
Board dimensions	133,35 x 30 (LxB mm)
Operating temperature	0° C - 85° C
Storage temperature	-40° C - +95° C
RoHS compliant	Yes
SKU	SP146847
EAN	4055069217230

Note: The module specified in this datasheet is one of several possible configurations available under this part number.

Some details may differ from the specifications described here and the illustration, but have no negative influence on the functionality.

#### System Specifications

The memory is 100% compatible with this sytem:

System manufacturer	QNAP		
Device type	Storage/NAS		
Device family	NAS TVS		
Device series	TVS-ECx80 Serie		
Device name	TVS-EC1080-i3		
Standard memory	8GB		
Maximum memory*	32GB		
Number of memory sockets	4		

\* The specifications for the maximum memory upgrade may differ from those of the manufacturer QNAP. Often the information given in the manual for the maximum memory upgrade is not up to date. New memory technologies, bios updates or newer software versions often allow the use of memory modules with a higher capacity than specified by the manufacturer with the same performance and stability.

#### Information on memory installation

- Turn off the system
- Remove the plug of the power supply unit (if connected)
- Remove the battery, according to the user manual of the system
- Always ground yourself before touching electronic components
- Protect the memory module from static voltages:
- Do not touch the gold pins of the memory module
- Only touch the sides of the memory module
- Use a grounding strap and/or ESD glove if possible

General installation instructions are supplied by E-Mail.

# phs memory®

#### Further memory options for QNAP TVS-EC1080-i3

Size	SKU	Technology	Туре	Number of pins	Brand	Reference no.	
4GB	SP146846	DDR3	UDIMM (Non- ECC unbuffered)	240 Pin DIMM	PHS-memory®	RAM-4GDR3-LD- 1600	
8GB	SP146847	DDR3	UDIMM (Non- ECC unbuffered)	240 Pin DIMM	PHS-memory®	RAM-8GDR3-LD- 1600	

#### PHS-memory® warranty

Every PHS-memory® is equipped with a 5-years-warranty of perfect operation. If the RAM module is defective or fails within 5 years of purchase when used properly, you will receive an appropriate RAM module free of charge. If a suitable memory module is no longer available, we will refund the purchase price.
