System Specifications

The memory is 100% compatible with this system:

System manufacturer	HP
Device type	Workstation
Device family	Workstation
Device series	Z400 Serie
Device name	Z400
Maximum memory*	48GB
Number of memory sockets	6
Annotation	Die 6 Speichersteckplätze unterteilen sich in 3 Speicherkanäle à 2 Speichersteckplätzen. Für eine gute Performance sollte jeder Speicherkanal mit mindestens einem Computer memory bestückt werden. Je nach vorhandener CPU wird der maximale Speichertakt vorgegeben: Xeon W3503 1066MHz Xeon W3505 1066MHz Xeon W3520 1066MHz Xeon W3540 1066MHz Xeon W3570 1333MHz

* The specifications for the maximum memory upgrade may differ from those of the manufacturer HP. Often the information given in the manual for the maximum memory upgrade is not up to date. New memory technologies, bios updates or newer software versions often allow the use of memory modules with a higher capacity than specified by the manufacturer with the same performance and stability.

Information on memory allocation

Es gibt zwei Versionen der HP Z400 workstation: HP Z400 with 4 Speicherslots: 4 x 8GB maximal 32GB RAM HP Z400 with 6 Speicherslots: 6 x 8GB maximal 48GB RAM

Information on memory installation

- Turn off the system
- Remove the plug of the power supply unit (if connected)
- Remove the battery, according to the user manual of the system
- Always ground yourself before touching electronic components
- Protect the memory module from static voltages:
 - Do not touch the gold pins of the memory module
 - Only touch the sides of the memory module
 - Use a grounding strap and/or ESD glove if possible

General installation instructions are supplied by E-Mail.
